Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/791,317	Applicant(s) WALKER ET AL.	
	Examiner Binh-An D. Nguyen	Art Unit 3713	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-20 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-20 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☒ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 02 March 2004 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

1. The Preliminary Amendment filed May 6, 2004 has been received. According to the Amendment, the specification has been amended. Currently, claims 1-20 are pending in the application. Acknowledgment has been made.

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the illustrations of the popcorn icon being utilized and transformed on a matrix in the slot machine game and as claimed in claim 1; illustration of the matrix of the game in claims 1-20; illustration of displaying an image which moves from a starting position to the respective determined position in claims 1, 3, and 16; illustration of the outcomes having respective positions which defines a column of claims 6, 19, and 20; and illustrations of method steps for the game process of claims 1-20 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate

changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to under 37 CFR 1.83(a) because they fail to show the popcorn icons being incorporated in a slot machine game as described in the specification. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in

the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. The disclosure is objected to because of the following informalities:

The applications incorporated by reference disclosed on page 23, line 29 to page 24, line 10 should be updated with the exact serial number(s) and/or patent number(s).

The recited abbreviation for "confer," i.e., "C.f." (page 2, line 31; page 3, line 1 ; page 4, lines 17 and 21) should be changed to "cf."

In the specification (page 6, line 20; page 7, line 19; page 12, lines 10 and 21; page 20, line 6; page 21, lines 5, 7, and 29), a comma (,) should be inserted after "e.g." and "i.e."

The conjunction "and / or" (with spaces) on page 5, line 4; page 8, line 27; page 10, lines 21, 22, 32; page 11, line 7; and page 17, lines 17, 26, and 30 should be changed to "and/or". The recited term "program275" on page 13, line 30 should be changed to "program 275."

On page 24, line 20, the recited word "deices" should be changed to "devices."

Note, other appropriate corrections regarding such typos throughout the specification should be made.

Appropriate correction is required.

Art Unit: 3713

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 6, 19, and 20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. In claims 6, 19, and 20, the limitations of generating/determining the payout based on outcomes having respective positions which defines a column have not been disclosed in the specification. Note, the specification only discloses the payout based on symbols having respective determined positions which defines a row.

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claim 1 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Baerlocher et al. (6,319,124).

Baerlocher et al. teaches a gaming method for slot machine comprising: generating an outcome for a slot machine, the outcome representing a plurality of reel symbols; displaying a common icon (50) for each symbol (Fig.3); determining, for each symbol, a respective position on a matrix, in which the matrix is defined by a plurality of rows and a plurality of columns, and in which each respective position is defined by one of the rows and one of the columns, displaying, for each common icon (50), a respective image of the common icon (50) transforming into the corresponding symbol (Figs. 4-6); displaying, for each symbol, an image which moves from a starting position (position prior to the game started) to the respective determined position; displaying the symbols on a display device based on the determined positions; and determining a payout based on rows and columns of the determined positions.

Baerlocher et al. does not explicitly teach a slot machine game having a popcorn icon, however, this is a design choice since replacing the common icons with the popcorn icon(s) does not bring unexpected result to the game. Note that, both the common icon 50 and the popcorn icon act as a mask or represent an unknown value prior to their transformation into certain symbol.

It would have been obvious to a person of ordinary skill in the art to modify Baerlocher et al.'s game by replacing the commons icons with the popcorn icons to enhance slot machine attraction.

10. Claims 2-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Baerlocher et al. (6,319,124).

Baerlocher et al. teaches a gaming method for slot machine comprising: generating an outcome for a gaming device, the outcome representing a plurality of reel symbols (Fig.4); determining a position on a matrix in which the matrix is defined by a plurality of rows and a plurality of columns, and in which each respective position is defined by one of the rows and one of the columns; displaying the outcome on a display device based on the determined position; and determining a payout based on the determined position (1:44-2:47); displaying an image which moves (transforms) from a starting position (position prior to the game started) to the determined position (3:9-20); generating a plurality of outcomes, in which determining a position on a matrix comprises determining a plurality of positions on the matrix, and further comprising: generating a payout based on the plurality of determined positions; generating the payout based on outcomes having respective positions which define a row (Fig. 4); determining a position on a matrix comprises randomly determining the position; determining a position on a matrix comprises determining the position based on at least one rule (5:19-23), and a determined position of another outcome; a symbol of the outcome and a symbol of the second outcome are identical; dividing the outcome into a plurality of components (individual component selected by the player); and displaying an image that depicts the components forming the outcome (Fig. 10); determining the payout based on identical symbols having respective determined positions which define a column (Fig. 9).

Art Unit: 3713

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bennett (6,251,013) teaches slot machine game with randomly designated special symbols.

Bennett (6,093,102) teaches a gaming machine having a matrix of symbols and multiple winning lines.

Payne et al. (6,241,607) teaches a multiple payline gaming system and method.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Binh-An D. Nguyen whose telephone number is 571-272-4440. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Xuan Thai can be reached on 571-272-7147. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
